ABOUT ME

Front-End Developer specializing in React.js and Next.js with a Bachelor's degree in Computer Science from MTI University. Passionate about building responsive, high-performance web applications with clean, maintainable code. Strong understanding of modern UI/UX principles, state management, and front-end best practices. Eager to contribute to innovative projects while continuously expanding my technical skills.

EDUCATION

Modern Technology Information University

Bachelor of Computer Science

Graduation: May 2026

Graduated with a Very Good overall grade

PROJECTS

Shop.co – Full-Stack Frontend E-commerce Application ([live Demo](#)) ([Repo](#))

- Developed a responsive e-commerce web application from a Figma design.
- Built a custom REST API using Baserow populated with scraped real-world product data.
- Implemented product search, filtering, sorting, shopping cart persistence, and checkout workflow.
- Managed application state with Redux Toolkit and optimized the application with reusable React components.

Numerical Analysis Calculator ([live Demo](#)) ([Repo](#))

- Developed a high-performance web application to solve complex mathematical problems using vanilla JavaScript.
- Implemented core numerical algorithms including Bisection, Newton-Raphson, LU Decomposition, and Gauss-Jordan.
- Engineered a dynamic and responsive user interface with pure DOM manipulation, ensuring zero dependency on external frameworks for maximum performance.
- Optimized calculation logic to provide real-time results and interactive data visualization.

Media Team Management Platform ([live Demo](#)) ([Repo](#))

- Architected a comprehensive platform to showcase media team capabilities and future roadmap.
- Designed an intuitive information architecture, categorizing resources into structured sections for enhanced user navigation.
- Implemented responsive web design principles to ensure a seamless experience across all devices and screen sizes.
- Collaborated on defining the visual identity and content structure to effectively communicate the team's value proposition.

SKILLS

- Core Tech: HTML5, CSS3, JavaScript (ES6+)
- Frameworks & Libraries: React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Styled-components
- Tools & Workflow: Git, GitHub, Vite, npm/yarn
- Development Practices: Responsive Web Design, RESTful APIs Integration, UI/UX Design Basics, Problem-solving & Research.
